SOCIAL CARE FACILITIES
REVIEW COMMITTEE

403/427-3010

Seventh Street Plaza
10030 - 107 Street
Edmonton, Alberta, Canada
T5J 3E4

March 15, 1983

THE HONOURABLE Dr. Neil Webber
Minister of Social Services
and Community Health
Room 424 Legislative Building
109 Street and 97 Avenue
Edmonton, Alberta
T5K 2B6

Dear Dr. Webber:

On behalf of the Social Care Facilities Review Committee, I have the honour to provide you with this report covering the activities of the committee for the calendar year of 1982.

During the year 1982, the committee made 431 visits to Social Care Facilities in Alberta. Since the committee was established in June of 1980, 1,081 visits have been made.

Yours truly,

David J. Carter

Dr. David J. Carter, MLA
Chairman

MEMBERS OF THE COMMITTEE 1982

The members were appointed by the Lieutenant Governor in Council.

Chairman:	Dr. David J. Carter, MLA (Calgary - Egmont)	Calgary
Vice-Chairman:	James Falconer	Edmonton
Members:	Marion Cairns	Vegreville
	Rita Nyback	Camrose
	Doreen Orman	Calgary
	Esther Rankin	St. Albert
	Carol Wilmot	Calgary
	George Wolstenholme	Nanton
New Appointments 1982:	Glenna Bell	St. Albert
	Susan Zukiwsky	St. Paul
Appointments Ended 1982:	Ray Desjardins	St. Paul
	Don LeBaron	Lethbridge
	Jim Wocks	Red Deer

Staff:

Administrative Assistant:	Eleanor Stiles	Sherwood Park
Secretary:	Joanne Blake	Edmonton

ESTABLISHMENT OF THE COMMITTEE

The Social Care Facilities Review Committee Act was enacted by The Alberta Legislative Assembly during the 1980 spring session, assented to on May 22, 1980, and proclaimed June 10, 1980.

Twelve members from various parts of the province were appointed to the Committee by the Lieutenant Governor in Council.
Dr. David J. Carter, MLA, was appointed Chairman.

ROLE OF THE COMMITTEE

The Committee is authorized by the Social Care Facilities Review Committee Act (1980) to visit social care facilities in the province for the purpose of reviewing and inspecting them and observing the manner in which they are operated.

The committee visits social care facilities which are operated by, or receive their current operating funds or part of them directly or indirectly, from the Government of Alberta.

LOCATION OF COMMITTEE OFFICE

The office of the Social Care Facilities Review Committee is located on the 5th floor of the Seventh Street Plaza (south tower), 10030 - 107 Street, Edmonton, Alberta, T5J 3E4. The hours of operation are from 8:15 a.m. to 4:30 p.m. The telephone number of the committee is 427-3010, and is listed in the Edmonton telephone directory and in the telephone directory of the Government of Alberta.

PAMPHLET AND POSTER

Pamphlets and posters have been made available to facilities under the committee's jurisdiction and the general public upon request. Posters are provided to be displayed in facilities where residents and staff may see them.

COMMITTEE ACTIVITIES

REGULAR MEETINGS

Meetings of the committee are held regularly, usually at monthly intervals. During 1982, twelve committee meetings were held. One committee meeting was held in Lethbridge and two in Calgary, following which extensive visits were made to facilities in these areas. A special evening meeting with the Alberta Day Care Advisory Committee was held on April 7, 1982, in Edmonton.

At committee meetings, the schedule of visits for the forthcoming month is presented and approved. Reports on the visits for the past month are discussed and the status of complaints are reviewed. These meetings have provided an opportunity for various groups and individuals to meet with the committee to discuss matters of mutual interest.

VISITS

Visits to facilities are generally unannounced and made by a team of at least two members. Upon arrival at a facility, members identify themselves to the administrator or person in charge. After meeting with the official in charge, they tour the facility and usually talk to residents and/or staff members on a one-to-one basis. The committee visit schedule is not restricted to regular business hours, but may include holidays, evenings and week-ends.

COMMENTS RE: DAY CARE

The vast majority of day care centres visited by the committee are of a good standard, some are very good, some are excellent, a few are marginally acceptable. Day care centres barely meeting minimum standards and policies will continue to be closely monitored and encouraged to maintain quality care and service.

During 1982, the few remaining day care centres operating under the old regulations updated their programs and facilities, and now all comply with the present regulations.

The committee noted that menus in day care centres have improved, and there is a greater awareness of good nutrition amongst operators and employees.

Many day care centres which formerly restricted their enrollment to full-time children are now accommodating children in a variety of part-time arrangements.

DAY CARE

The committee recommends:

1. That procedures be established to ensure that applicants for day care licenses are fully aware of the duties and responsibilities of day care operators and that they have the qualifications to be dependable and successful operators.

2. That day care operators be assisted to prepare policy and procedure manuals.

3. That a registry of qualified day care workers be established.

4. That training programs be encouraged and promoted for day care workers.

5. That discipline guidelines concerning children in day care centres be provided to licensed operators.

CONCERNS AND REQUESTS FOR ASSISTANCE

Various complaints were received and attended to during the year. Examples of these are as follows:

Staffing and management problems in a group home.
Action was taken by the Department and the Association. The staffing and management shortcomings have been remedied.

A citizen complained about the shortage of staff in a child care centre. Particulars on the reduction of residents and the new staff-resident ratio was given to the complainant who was satisfied with the information provided.

A former employee expressed concerns about staffing and the administration of a group home.
The concerns were discussed with the group home operators who made staff and policy changes and physical improvements to provide a more satisfactory operation.

CONCERNS AND REQUESTS FOR ASSISTANCE

A complaint was received regarding deficiencies in management and staffing of a group home.
Concerns expressed were discussed with the director of the agency and action was immediately taken to remedy the deficiencies.

On a number of occasions, the committee assisted persons with concerns in contacting the appropriate person in the department who was in a position to give them direction and assist them with their concern or request for information.

A complaint was received from a citizen regarding the reduction of staff in an institution. An enquiry was made by the committee which found that a reduction in staff had taken place, but there had also been a reduction in the number of residents in the institution. The ratio of staff to residents had, therefore, not changed. The complainant was provided information on present staffing patterns in the institution.

GENERAL OBSERVATIONS AND RECOMMENDATIONS

During the year, the committee members met with agency officials, directors of facilities and senior personnel in the Department of Social Services and Community Health to discuss care, rehabilitation, programs, standards, staffing, activities and training relating to residents and others in a wide range of facilities in the province.

Observations and recommendations by committee members were discussed with facility operators, department officials, or the Minister of Social Services and Community Health through the Chairman.

The Chairman has represented the committee at agency and association meetings and has had interviews with media representatives and appeared on television to inform the public about the work of the Social Care Facilities Review Committee.

The committee has requested the Minister of Social Services and Community Health to provide consultative advice and service to facilities which the committee felt needed help in such areas as management, operations and client training. The Minister has responded positively in these cases and provided the assistance and services required.

GENERAL OBSERVATIONS AND RECOMMENDATIONS

During the year when many second and third visits were made to rehabilitation centres, the committee members reported that training programs have improved in a number of areas and more emphasis is being placed on the progress and achievement of trainees.

We have observed during visits to residential facilities this year that building maintenance, fire safety, furnishings and equipment have improved and greater attention is being paid to standards of accommodation by operators and employees.

We believe many benefits have flowed from our members' visits and talks with operators and residents. Interviews are handled in a low-key and helpful manner. The committee is encouraged by the favourable response to the members' visits by facility operators, residents, employees and the public. Letters of appreciation from directors of facilities have been received.

The committee members have been available to discuss problems with employers or staff and have provided or obtained assistance for them as required. Concerns and requests for information brought to our attention have received prompt and careful attention.

ACKNOWLEDGEMENT

The committee wishes to extend thanks and commendation to associations, boards, volunteers, administrators and employees connected with a wide variety of social care facilities throughout the province. We recognize them for their interest, patience, dedication and effectiveness in providing care, training and services to residents, patients and trainees, during the year.
